

Start your Career and Increase your Earning Power

Getting your IT job is part of your experience throughout the NuPaths program.

NuPaths works with you throughout the program and beyond, to pursue employment opportunities. We connect students with employers for internships, apprenticeships, and full-time job opportunities.

- Integrated Career Services support from beginning to end, and beyond
- Direct connections to employers through events and guest speakers
- Build your professional network to find job opportunities

Career Services

WEEK 1

Orientation

Get introduced to an IT employer, learn about hiring trends and discover job search tips.

WEEK 6 - WEEK 22

Business Skills Workshops

You'll participate in workshops that focus on developing job search, professional networking, communication, interviewing, negotiation and conflict resolution skills. Students create a résumé that highlights the IT skills learned and create a professional network on LinkedIn.

WEEK 16 - WEEK 26

Job Search Webinars and Career Services Support

Receive additional insight and individual feedback on job search strategies, résumé writing, and interview preparation.

WEEK 23

Employer Connection Event

Connect with multiple employers for current and future job opportunities in a speed interviewing format.

WEEK 26

Next Steps Session

Learn about professional associations from an employer, Harrisburg University professional development, HU degree programs and staying connected with NuPaths for career services.

ONGOING

Employer Spotlight

Meet with employers to learn about their business and hiring trends in technology.

Online Alumni Group

Receive updates about job opportunities, job search strategies and professional development opportunities.
